## Projects

- **MOVIE RESERVATION SYSTEM**
  An online movie ticketing system is a digital platform that allows customers to access the services of a business, reserve seats and buy tickets. This platform provides details such as what time a movie will be played, what seats are available, movie previews and so much more.
- **ORGANIC FARMING**
  Organic farming software is user-friendly web application which is used to connect farmers with customers.farmers can directly sell their products to the customers. Pure, fresh & non-toxic vegetables, fruits and food products are delivered to customers.
- **ONLINE CAKE SHOP**
  The online cake shop website is developed in such a way that allows users to check for various cakes available at the online store and purchase online.The project consists of list of Cakes displayed in various categories.The user may browse through online.
